Renfer Ltd.

Packaging specialist for the watch making
industry

Our family-owned company has a very long tradition and currently employs approx. 50 highly-qualified specialists, most of whom have many years of experience in the fields of plastics technology, mould making, engineering and project management. Since the foundation of the company in 1917, the highly specialized Renfer people have guaranteed reliable solutions for our successful customers.

As time progresses the demands and requirements of our customers are continuously changing. These changes make us what we are today: a partner offering the best value. Now and in the future.

We enjoy an excellent reputation in the Swiss watch making and packaging industry and are highly recommended in the field. Therefore, it now gives us pleasure to present our catalogue to you. Our extremely motivated staff members are at your disposal. We will be pleased to answer your questions, to take orders or to develop new projects in co-operation with you.

A handwritten signature in blue ink, appearing to read 'H. Th', is written on a light blue background.

Your projects

Chapter 1.01

Customized parts?
Are you planning a new project?

We are a reliable partner able to successfully realize your products. We develop and manufacture moulds and produce components in controlled processes such as deep drawing or injection molding.

We realize more than two hundred customers' projects every year.

Our name guarantees an overall positive outcome – also for YOUR important projects.

Project management

Our specialist informs you in a professional manner and develops your idea, in cooperation with you, up to the stage of production in series. A consistent approach is applied throughout the internal project management process. Drawing on the close co-operation of all those persons involved, he successfully manages your project from the start to the finish.

Engineering

Renfer is dedicated to transforming your requirements into a design using appropriate materials suitable for production. We give our customers the quality they require for a reasonable cost.

Mould making

In the company we also build the moulds for our production. This is a decisive advantage for our customers as we take full responsibility for the tools and modifications are easy to implement. These are only some advantages of our fully equipped in-house mould-making facility.

First samples

The project manager is in charge of the overall realization of all of your requirements. He co-ordinates production of the first samples with the mould-making, the production and quality management departments. We strive towards presenting initial samples which please at first glance.

Production

Process control, quality management and the necessary automation form the basis of our production. Highly-developed logistics guarantee delivery on time.

Customer service

Our customer service department is at your disposal for the complete lifetime of the product. The use of modern information technology enables us to efficiently provide you with information.

Movement cases

Chapter 2.01

Whoever mentions movement cases, is thinking of Renfer!

We produce hundreds of standard movement cases with many of them supplied from stock as well as numerous customized versions. Our in house designed standard mould system enables us to quickly manufacture your inserts for a competitive price. You benefit from our organization.

Do you require a special movement case? Our specialist will be pleased to inform you about all of the possibilities at your disposal.

Boxes

Chapter 3.01

Boxes

Our boxes look good in the workshop and the warehouse or when used for presentation purposes.

They are pleasing to the eye and are also extremely durable. As in the case of other standard packages, the boxes are also available from stock, even in very small quantities.

Plastic containers

Chapter 6.01

Plastic containers

RENER containers are known for their robust quality. Numerous design details simplify your daily work. The lid, for instance, offers various possibilities for attaching papers/labels. And the exchangeable foam inserts protect your components wherever required. The keys firmly link one or several containers.

Mail receptacles

Chapter 7.01

Mail receptacles

Do you have to send small (or not so small) items by mail? Our security boxes are just right for the job. Your items are simply placed inside the inner frame and if necessary protected by foam inserts supplied as an accessory. That's all you need to send your package in a secure and economic way. Economic because the postal service will convey the consignment for the price of a letter. You too can benefit from the advantages of using the proven Renfer tresorbox.
